Dear Sir/Madam,

As you are aware Jhpiego- a Johns Hopkins University affiliate synergizes UP TSU's efforts towards improving RMNCH+A outcomes in Uttar Pradesh by ensuring availability of competent and confident nursing workforce.

Through this project, Jhpiego is closely working with UP State Medical Faculty and has identified 13 private sector nursing institutions across UP to demonstrate a feasible model of quality improvement in private sector using standards based approach. The project interventions include implementation of INC endorsed standards for nursing education and efforts towards strengthening the educational processes, clinical site practices, training infrastructure and capacity of the nursing faculty in the identified private institutions.

In order to develop competency in facilitation skills, demonstration skills and clinical skills of the nursing faculty we are organizing **"Six Days Training of Trainers (ToT)"** from 14th - 19th May, 2018 at Balrampur Hospital, Lucknow in collaboration with Jhpiego. In this context, you are requested to nominate **two faculties** preferably from OBG and Paediatrics, from your school/college who will attend for all six days.

Kindly provide us with the names and contact number of the nominated persons at the earliest possible. Agenda for the training is enclosed for your reference. Accommodation for outstation participants is arranged at **Hotel Golden Tulip**, Lucknow on twin sharing basis (all meals included). Outstation participants can claim travel reimbursements by submitting the original bills/tickets. Cost of return travel can be claimed based on the Xerox copy of tickets. Participants claim train tickets upto 2nd AC fare and bus tickets upto AC fare. Local transport cost can be claimed by producing the taxi bills/receipts. For any queries please contact Ms Tanushree, Program Assistant, Jhpiego (Mob. 9455093269).

I believe our collaboration as a team will significantly contribute towards improving quality of nursing-midwifery education in UP, thereby contributing towards improved health outcomes.

Best Regards,
