About the Programs:

This is of prime importance as it helps students to develop their personality. With an endeavour to empower the students to become assets to the organizations and contribute meaningfully to the entire world, students are supported and facilitated through various capability enhancement and development schemes. The capability enhancement and development schemes are the stimulating factors in getting the students corporate - ready and become a responsible social citizen. The following measures are undertaken with respect to following subjects:

Soft skills, personality & professional development:

Institute strives towards continual enhancement of soft skills and personality development of the students considering them as an integral requirements of business world today. It involves grooming the students on various aspects such as business etiquettes, communication skills, presentation skills, team work, networking, time management, motivation, confidence building, leadership skills, creative thinking and decision making etc. Students are encouraged to participate in various activities covering:

- Group discussion,
- Personal interview
- Presentations
- Seminars
- Cultural activities

Sports activities etc.... Organized at the institute level or outside campus

Language and communication skills development:

Proper courses are run to enhance the spoken English, Arabic and Communication skills of the students. The Our College started a Health Care English Course with association of EBEL Language Laboratories Pvt Ltd. To improve the communication and spoken English skills of the students, an interactive Language class has been setup. This class is equipped with necessary listening, speaking, and writing provisions where the students listen to the native speaker of English and learn the phonetic sound of the English language.

Yoga and Wellness is considered as a healthy way of life, a sound activity for stress free living. Institute promotes health benefits among the faculty members and students through Yoga and Meditation. This wellness platform hugely contributes in creating stress free positive environment and healthy way of thinking and living. Yoga Centre is available for students and staff of the institute. Yoga and Meditation programs are conducted in the institute. Institute celebrates International Yoga Day since its inception. Techniques of meditation and various postures (Asanas) are performed to lead a healthy and stress-free life.

In current academic year 2019-2020, the Institute has started the career counselling program under the Counselling Centre of Baba educational society Institute of Paramedical College of Nursing Chinbat Lucknow UP being facilitated by:

Employment skills development:

Administration has been organizing the skills Development, Language and Communication Skill Development, Program to aim at personality and professional development. The Institute aims to provide baseline of program and delivered the lecture on importance of counselling in our life as well as job selection to students from various from time to time. Various programs and Event to enhance employability like Basic life Skills, Infection Control Measures, computer skills etc are being organized from time to time.

Analytical skill Development:

An indispensable requirement of the field, the curriculum and teaching methodologies aim to promote analytical skill development and critical thinking among the students. Nursing clinical instructor know that students face difficulties in making decisions related to clinical practice. The instructor focuses on following activities/methodologies to enhance analytical skill build-up among students;

- Critical analysis during assignments.
- Debates: Distinguish of facts & opinions.
- Independence of thoughts: Speech & seminars.
- Research & analysis
- Clarification of concepts & recognition of conditions: during practical teachings.

Human Value Development:

The human value and ethics are covered by the institute through various methods / programmes undertaken as follows;

- Course curriculum teaching
- Orientation session
- Code of conducted by NGO
- Internal sessions & teaching etc.

2. Enough, too, so, such
3. Questions 1
4. Questions 2
5. Advice & suggestions

Medical Terminology

Learning a wide range of medical terms enables students to precisely describe the human body including its different parts, processes, conditions affecting it, and treatments and procedures performed upon it. Each unit includes analysis of root words, prefixes and suffixes, a wide variety of language, a pronunciation guide, and shows how medical terms are used in practice.

1. An Introduction to medical terminology

Medical terms vs everyday terms; prefixes and suffixes for diseases, conditions, surgical procedures

2. Terms for the body

Direction, movement, position; blood; body systems; internal organs

3. Terms for the top of the body

The head and neck; the face; the ears and eyes; the nose

MODULE 3 (B1 LEVEL)

In module 3, students learn the English they need to study and work in a wide range of nursing-specific areas and clinical scenarios, as well as a range of essential language structures and functions, and a range of medical terms. At the end of the year, students will be tested with OET Pulse, a test developed by OET to assess a candidate's level of healthcare-specific English and their readiness to take the international OET Nursing test. All candidates receive an end-of-course certificate which shows their OET Pulse score.

S.No	Course	Units	Practice hrs	Tutored hrs	Total hours
1	English for Nurses	5	50	60	135
2	Essential Grammar	10	10	(across all courses)	
3	Medical Terminology	2	15		

English for Nurses

Each unit consists of 10 hours study time. Content includes patient and colleague interactions, medical terms, hospital documents, reading, listening, and speaking using interactive recording and pronunciation tasks.

1. Introduction

Topics include: roles, responsibilities, patient admission, introducing yourself, fundamentals of medical terminology

2. Pain

Topics include: types, severity and location of pain, pain scales, pain relief, osteoarthritis, medical terms for anterior and posterior of the body

3. Pressure area care

Topics include: pressure ulcers, changing a patient's position, intentional rounding, Waterlow assessment tool, patients in wheelchairs, medical terms for the lower back.

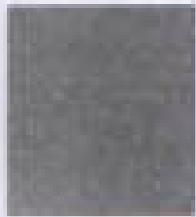

4. Falls and injuries

Topics include: falls, injuries, i.e. sprains, strains, fractures and dislocations, braces, plaster casts, risk assessment, incident reports, medical terms for feet, legs, hips, thighs.

5. Infection control

Topics include: hospital acquired infections, wound infections, taking blood and temperature, isolation nursing, medical terms for skin, hair and nails.

CHINNAI, TAMIL NADU

Essential Grammar for Healthcare

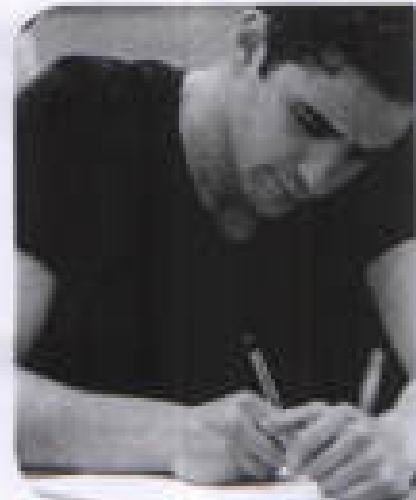

Each unit consists of 1 hour of study time. Grammar is introduced using authentic content, then explained, then practiced both at sentence level and whole text, including spoken via interactive recordings.

Tenses and verb forms

1. Will future
2. Zero and 1st conditionals
3. 2nd conditional
4. Passive 1
5. Passive 2

Functions

1. Offers & requests
2. Ability & possibility
3. Necessity & obligation
4. Reflexive pronouns
5. Prepositions of location and movement

Medical Terminology

Learning a wide range of medical terms enables healthcare students and professionals precisely describe the human body including its different parts, processes, conditions affecting it, and treatments and procedures performed upon it. Each unit includes analysis of root words, prefixes and suffixes, a wide variety of language, a pronunciation guide, and shows how medical terms are used in practice.

1. Terms for the middle of the body

The chest; the heart and heart sounds; the liver and gallbladder; the stomach; the pancreas

2. Terms for the rest of the body

The back and spine; the arm, wrist and nails; the intestines; the female reproductive system; the feet and ankles

MODULE 4 (B1-B2 LEVEL)

In module 4, students develop their English for Nursing skills to give them a comprehensive grounding in all areas of essential care. In addition, they study a range of more advanced language structures and functions. Finally, they learn how to write academic English in a medical context. At the end of the year, students will be tested with OET Pulse, a test developed by OET to assess a candidate's level of healthcare-specific English and their readiness to take the international OET Nursing test. All candidates receive an end-of-course certificate which shows their OET Pulse score.

S.No	Course	Units	Practice hrs	Tutored hrs	Total hours
1	English for Nurses	5	50	60 (across all courses)	140
2	Advanced Grammar	10	10		
3	Academic Writing Skills	9	20		

English for Nurses

Each unit consists of 10 hours study time. Content includes patient and colleague interactions, medical terms, hospital documents, reading, listening, and speaking using interactive recording and pronunciation tasks.

1. Intravenous therapy

Topics include: IV equipment, administering and checking IV fluids, fluid balance chart, drug calculations, IV prescription, medical terms for arm and hand.

2. Administering medications

Topics include: medication types, dosage, frequency, drug charts, side effects, medical terms for eye and ear.

3. Breathing difficulties

Topics include: respiratory disorders, breathing equipment, oxygen therapy, emergency oxygen prescription charts, lifestyle changes, medical terms for chest and lungs.

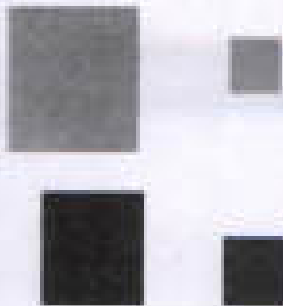

4. Post-operative care

Topics include: recovery, discharge, district nurse referral, SBAR, patient confidentiality, medical terms for the abdomen.

5. End of life care

Topics include: cancers, cancer treatment, side effects, palliative care, DNAR orders, medical terms for mouth and throat.

Advanced Grammar for Healthcare

Each unit consists of 1 hour of study time. Grammar is introduced using authentic content, then explained, then practiced both at sentence level and whole text, including spoken via interactive recordings.

1. Using state and dynamic verbs in the present
2. Present perfect simple and continuous
3. Talking about the past
4. Talking about the future
5. Conditionals 1
6. Conditionals 2
7. Modals and modality
8. Using articles
9. Using adjectives
10. Using superlatives and modifiers

Academic Writing Skills

This practical guide to academic writing uses a 'ground up' approach, starting with the fundamental building blocks of language, before extending them systematically into full texts. Finally, students learn how to apply what they have learnt to writing abstracts and research articles. Throughout the course, they study many real world examples of medical academic writing.

1. An introduction to academic writing
2. Words
3. Sentences
4. Paragraphs
5. Referencing
6. Texts
7. Proofreading
8. Writing abstracts
9. Writing research articles
 - a. The research paper
 - b. Introduction and methods
 - c. Results and discussion
 - d. Common mistakes

CUTTING EDGE TEACHING AND LEARNING PLATFORM

All courses are provided on the latest learning management systems which make it easy for students to do the courses and easy for teachers and administrators to track and monitor learner progress.

Key features

- Intuitive design, simple to use
- All content available on the course app
- Wide variety of media-rich learning inputs
- Wide variety of tasks, including interactive recording and playback
- See 'at a glance' scores and course completion rates for your students
- Get detailed reports on student activity whenever you want
- See your student pages as if you were them
- Reset student activities if you need them to do something again
- Arrange your students into groups for teaching
- Communicate with students through the in-built messaging
- Invite students to online tutorials with the in-built video-conferencing
- Set and receive homework assignments

We provide on-going technical support to all students and teachers.

About SLC

SLC is the UK's leading provider of Medical English training services to the global healthcare sector, and the first OET-accredited Premium Preparation Provider in Europe.

SLC creates and publishes cutting-edge online courses for healthcare students and professionals, enabling learners around the world to get outstanding, up-to-date content and resources wherever they may be.

Courses are accredited by NOCN Group and/or the CPD Standards Office in the UK.

part of nocn group

SLC's clients include NHS England, Health Education England, Cambridge Boxhill Language Assessment (OET), medical universities, nursing colleges, healthcare employers and thousands of healthcare professionals and students around the world.

About Ebek

Ebek Language Laboratories Private Limited (Ebek) has been providing quality English language solutions to schools, colleges, universities and Government departments across India since 2007.

Ebek is an authorised test delivery partner for OET, conducting OET tests in Chennai, New Delhi, Kolkata, Ahmedabad, Kottayam, Kochi, Angamaly and Kozhikode.

To provide quality English language solutions, Ebek has partnered with various international institutions including:

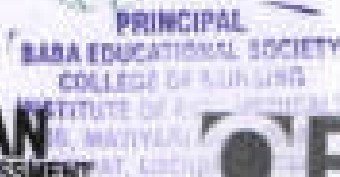

1. Cambridge Assessment English
2. OET, Australia
3. Michigan Language Assessment, USA
4. Specialist Language Courses (SLC), UK

This Memorandum of Understanding ("MOU") is made in Lucknow on this the 06th day of October, 2023. By and between

M/s. EbekMed Edventures Private Limited, a company incorporated under the Companies Act, 2013 having its office at 141, Kutchery Road, Mylapore, Chennai-600 004, Tamil Nadu, India represented by its Chairman G. Sreekanthan as its authorized signatory hereinafter referred to as "EbekMed",

AND

College of Nursing Baba Educational Society located at 56, Matiyari, Deva Road, Chinhati, Lucknow, India, hereinafter referred to as "The Institution" which expression, unless repugnant to the context or meaning thereof, shall mean and include its successors, permitted assigns and affiliates) and represented by its Chairman, Mr. R.K. Vajpayee as its authorized signatory.

EbekMed and The Institution shall here in after be collectively referred to as "Parties" and individually as a "Party".

WHEREAS:

EbekMed is a 100% subsidiary of Ebek Language Laboratories Private Limited, an authorized test delivery partner of OET. It provides quality Healthcare English language solutions ("Nursing") to nursing colleges, deemed-to Universities, working healthcare professionals and hospitals across India. EbekMed has introduced specialized courses for students studying in medicine, nursing, physiotherapy and pharmacy streams.

The Institution is a Nursing and Allied Health Professions college which endeavors to work as a center of excellence for nursing and allied health courses for Uttar Pradesh and neighboring states. The Institution is interested in making the Nursing course voluntary for their students. The Institution is therefore interested in associating with EbekMed to offer these healthcare English courses. EbekMed has agreed to the same subject to certain terms and conditions mutually agreed between the Parties.

The Parties are desirous of recording the terms of the collaboration agreed to between them.

PRINCIPAL

NOW, THEREFORE, in consideration of the mutual understandings and agreements set forth here in, the Parties hereto hereby agree as follows:

1. TERM

1.1. This MoU shall come into effect on this date and shall be valid for a period of three years ("Initial Term") unless otherwise extended in writing by the Parties or terminated in accordance with the terms hereof.

2. GRANT OF RIGHTS

2.1. The Institution hereby grants to EbekMed the exclusive right to train and conduct the Nursing Course within the premises of the Institutions and EbekMed hereby accepts the same.

3. OBLIGATIONS OF EBKMED

- 3.1. EbekMed shall plan with The Institution for the conduct of the course.
- 3.2. EbekMed shall provide the Preparation Provider Certificate to The Institution.
- 3.3. EbekMed shall assist the institution in creating awareness amongst the parents and students on the importance of English for better career opportunities.
- 3.4. EbekMed shall provide the necessary course material for each student according to their language levels.
- 3.5. EbekMed shall depute required number of trainers for the conduct of face-to-face training programme.
- 3.6. EbekMed shall provide a designated coordinator for smooth progress of the programme.
- 3.7. EbekMed shall complete the course for each batch in five months from the date of commencement.
- 3.8. EbekMed shall conduct the Cambridge English Exams for levels A2-B1 and B1.
- 3.9. EbekMed shall conduct OET Pulse for level B1-B2.
- 3.10. EbekMed shall be responsible for the complete organization and conduct of the Cambridge English Exams and OET Pulse exam on the test dates as per stringent rules laid by Cambridge English and OET.
- 3.11. EbekMed shall provide the result of final exams to The Institution.

PRINCIPAL
BABA EDUCATIONAL SOCIETY
COLLEGE OF NURSING

- 3.12. EbekMed shall hand over the Cambridge English and OET-Pulse Certificates to The Institution to be handed over to the students
- 3.13. EbekMed will identify potential candidates from the final year and help them in the preparation for OET exams.

4. OBLIGATIONS OF THE INSTITUTION

- 4.1. The Institution agrees in creating awareness amongst the students studying in their nursing and paramedical colleges about the introduction of healthcare English courses.
- 4.2. The Institution agrees to work on a suitable time table for face-to-face training.
- 4.3. The Institution shall enroll a minimum of 200 students every academic year.
- 4.4. The Institution shall share the details of the students in the format given by EbekMed for creation of login credentials.
- 4.5. The Institution shall provide proper space and seating allocation for the EbekMed trainer.
- 4.6. The Institution shall not employ or use EbekMed trainers for 3 years from the end of this agreement.
- 4.7. The Institution shall provide audio visual facilities in the classroom.
- 4.8. The Institution shall provide high speed internet for the conduct of classes and exams.
- 4.9. The Institution shall appoint a coordinator for the smooth process of the programme.
- 4.10. The Institution shall select a date for the final exams.
- 4.11. The Institution shall provide classrooms with high-speed Wi-Fi internet for the conduct of final exams.

The Institution shall distribute the certificates to the students on receipt of the same from EbekMed.

5. COMMERCIAL TERMS

- 5.1. The course fees for the various levels are listed in Annexure II and will be applicable for each academic year.

6. PAYMENT TERMS

6.1. The students shall pay in the fees directly to the Ebek as follows:

6.1.1. The course fees shall be paid in two installments. The first installment of 50% will be paid before the commencement of face-to-face training. The balance 50% will be paid at the end of the 15th week of the course.

6.1.2. The course fees can be paid by cheque or Demand Draft in the name of EbekMed Adventures Private Limited. The payment can also be made directly to EbekMed's Bank Account.

6.2. The Institution shall facilitate collection of fees, on behalf of EbekMed, from the students who enrolled in the Nursing courses.

7. CONFIDENTIALITY

7.1. Each Party shall keep confidential and shall not without the prior consent in writing of the disclosing Party copy or disclose to any third party the content of any documents or information (whether of a commercial, financial or technical nature or which is identified as being confidential) acquired or received in writing, orally or in any other tangible or intangible form from the other Party in connection with this MoU; such information referred to as "Confidential Information".

8. EMPLOYMENT

8.1. The Institution shall not take in to employment on a full time or part time, any of EbekMed's trainers for 3 years from the end of this MoU.

9. TERMINATION

9.1. This MOU may be terminated:

9.1.1. By unanimous consent after clearing all pending dues on either side.

9.1.2. In the event of any lawful authority ordering the Parties to terminate this MoU.

10. APPLICABLE LAW AND ARBITRATION

10.1. This Agreement shall be governed by Indian law.

10.2. Any dispute arising out of or in connection with this MoU, including any question regarding its existence, validity or termination, shall be referred to and finally resolved by arbitration at Chennai, India in accordance with the Indian Arbitration and

Dear madams/Sir,

Updates of the last virtual meeting and please find the selected procedure checklist attached for the teachers to teach the final year students and make them practice.

Thank you for attending the virtual meeting on 19/5/23

Discussed points during the meeting are

Institutes must prepare their B.sc final year students as per the checklist

Test will be conducted on 25/06/23 at Baba college of nursing ,LKW

Facility coast will be 100 rupees per student.

There will be shuffling of faculty for test conduction for the purpose of objectivity and to prevent bias.

Institutes has to bear their own transportation and procedure checklist printout charges.

Please feel free to reach out for any queries.

Regards and Thanks

Dr.N.Neetu Devi

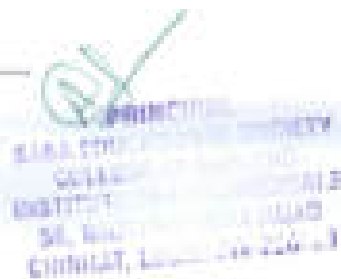

Nursing Consultant

Cc: RitaHendricks@hpiego.org, bhawna.bakshi@hpiego.org

Thank you for the mail

I was unable on 19/05/2023 meeting, and I didn't get any clarification related to this test till now.also 25 is sunday so collage will be close so please reschedule skill test in working days only, and please provide all related information

regarding conducting test in proper way like how many students are there? when they will submit fee and where? in how many days we have to conduct this test? or is every single procedure in checklist are compulsory to test from every students?

So this is my request please try to communicate properly and first provide all related information than only plan such kind of things.

Thanks and regards

Dr. Archana chouhan

Subject: Re: Procedure checklist for final years students to practice

(Quoted text hidden)

I. CHECKLIST FOR PERFORMING AN EYE IRRIGATION

S.NO	STEP/TASK	1	2	3	4	5
1.	Goal: The eye is cleansed successfully. Gather equipment. Check the original physician's order for the irrigation according to agency policy. Clarify any inconsistencies. Check the patient's chart for allergies.					
2.	Identify the patient. Usually, the patient should be identified using two methods. Compare information with the MAR or CMAR. a. Check the name and identification number on the patient's identification band. b. Ask the patient to state his or her name. c. If the patient cannot identify him or herself, verify the patient's identification with a staff member who knows the patient for the second source.					
3.	Explain the procedure to patient and obtain verbal consent.					
4.	Assemble equipment at the patient's bedside.					
5.	Perform hand hygiene.					
6.	Have patient sit or lie with head tilted toward side of affected eye. Protect patient and bed with a waterproof pad.					
7.	Put on disposable gloves. Clean lids and lashes with washcloth moistened with normal saline or the solution ordered for the irrigation. Wipe from inner canthus to outer canthus. Use a different corner of washcloth with each wipe.					
8.	8. Place curved basin at cheek on side of affected eye to receive irrigating solution. If patient is able, ask him or her to support the basin.					
9.	Expose lower conjunctival sac and hold upper lid open with your non-dominant hand.					
10.	Fill the irrigation syringe with the prescribed fluid. Hold irrigation syringe about 2.5 cm (1") from eye. Direct flow of solution from inner to outer canthus along conjunctival sac.					
11.	Irrigate until the solution is clear or all the solution has been used. Use only enough force to remove secretions gently from the conjunctiva. Avoid touching any part of the eye with the irrigating tip.					
12.	Pause irrigation and have patient close eye periodically during procedure					
13.	Dry periorbital area after irrigation with gauze sponge. Offer towel to patient if face and neck are wet.					
14.	Remove gloves and perform hand hygiene.					
15.	Assist the patient to a comfortable position.					

 (PRINT NAME)
 DATA TOWER
 COLLEGE
 INSTITUTE OF NURSING
 58, MAHARAJA ROAD
 CHENNAI, TAMIL NADU

16.	Clean and replaced the used articles					
17.	Evaluate patient's response to medication within appropriate time frame.					
18.	Recording in the patient file and report to the concerned authority after completion					

2. CHECKLIST FOR PERFORMING AN EAR IRRIGATION

S.NO	STEP/TASK	1	2	3	4	5
1.	Goal: The ear is cleansed successfully. Gather equipment. Check the original physician's order for the irrigation according to agency policy. Clarify any inconsistencies. Check the patient's chart for allergies.					
2.	Identify the patient. Usually, the patient should be identified using two methods. Compare information with the patient's chart. a. Check the name and identification number on the patient's identification band. b. Ask the patient to state his or her name. c. If the patient cannot identify him or herself, verify the patient's identification with a staff member who knows the patient for the second source.					
3.	Explain the procedure to patient and obtain verbal consent from the patient/relatives.					
4.	Assemble equipment at the patient's bedside.					
5.	Perform hand hygiene.					
6.	Have patient sit up or lie with head tilted toward side of affected ear. Protect patient and bed with a waterproof pad. Have patient support basin under the ear to receive the irrigating solution.					
7.	Clean pinna and meatus of auditory canal as necessary with moistened cotton-tipped applicators dipped in warm tap water or the irrigating solution.					
8.	Fill bulb syringe with warm solution. If an irrigating container is used, prime the tubing.					
9.	Straighten auditory canal by pulling cartilaginous portion of pinna up and back for an adult.					
10.	Direct a steady, slow stream of solution against the roof of the auditory canal, using only enough force to remove secretions. Do not occlude the auditory canal with the irrigating nozzle. Allow solution to flow out unimpeded.					

11.	When irrigation is complete, place cotton ball loosely in auditory meatus and have the patient lie on side of affected ear on a towel or absorbent pad.					
12.	Remove gloves and perform hand hygiene.					
13.	Assist the patient to a comfortable position.					
14.	Clean and replaced the used articles					
15.	Evaluate the patient's response to the procedure. Return in 10 to 15 minutes and remove cotton ball and assess drainage					
16.	Recording in the patient file and report to the concerned authority after completion					

3. CHECKLIST FOR IRRIGATING A NASOGASTRIC TUBE CONNECTED TO SUCTION

NO	STEP/TASK	1	2	3	4	5
1.	Goal: The tube will maintain patency with irrigation. Check the physician's order.					
2.	Identify the patient.					
3.	Explain the procedure to the patient and why this intervention is warranted. Perform key abdominal assessments as described above.					
4.	Gather necessary equipment. Check expiration dates on irrigating solution and irrigation set.					
5.	Perform hand hygiene. Put on gloves.					
6.	Pull the patient's bedside curtain. Raise the bed. Assist patient to a 30- to 45-degree position, unless this is contraindicated.					
7.	Check placement of NG tube.					
8.	Pour irrigating solution into container. Draw up 30 mL of saline solution (or the amount ordered by physician) into syringe.					
9.	Clamp suction tubing near connection site. If needed, disconnect tube from suction apparatus and lay on disposable pad or towel, or hold both tubes upright in nondominant hand.					
10.	Place tip of syringe in tube. If Salem sump or double-lumen tube is used, make sure that syringe tip is placed in drainage port and not in blue air vent. Hold syringe upright and gently insert the irrigant (or allow solution to flow in by gravity if agency policy or physician indicates). Do not force solution into tube.					
11.	If unable to irrigate tube, reposition the patient and attempt irrigation again. Inject 10					

	to 20 ml of air and aspirate again. Check with physician or follow agency policy if repeated attempts to irrigate tube fail.					
12.	After irrigant has been instilled, observe for return flow of NG drainage into available container. Alternately, the nurse may reconnect the NG tube to suction and observe the return drainage as it drains into the suction container. Inject air into blue air vent after irrigation is complete. Position the blue air vent above the patient's stomach.					
13.	Measure and record amount and description of irrigant and returned solution if measured at this time.					
14.	Rinse equipment if it will be reused. Label with the date, patient's name, room number, and purpose (for NG tube/irrigation). Remove gloves and perform hand hygiene.					
15.	Lower the bed. Assist the patient to a position of comfort. Perform hand hygiene.					

4. CHECKLIST FOR ADMINISTERING A BLOOD TRANSFUSION						
S.NO	STEP/TASK	1	2	3	4	5
1.	Goal: The patient receives the blood transfusion without any evidence of a transfusion reaction or complication. Identify the patient. Ask the patient if he/she is allergic to any medication, iodine, tape or if he/she has had a transfusion or transfusion reaction in the past.					
2.	Determine whether the patient knows the reason for the blood transfusion. Explain to the patient what will happen. Check for signed consent for the transfusion if required by agency. Advise the patient to report any chills, itching, rash, or unusual symptoms. If the physician has ordered any premedication, administer it now.					
3.	Perform hand hygiene and put on clean gloves.					
4.	Hang container of 0.9% normal saline with blood administration set to initiate IV infusion and follow administration of blood.					
5.	Start the IV with 18 or 19 gauge catheter if not already present (see Skill 46-1). Keep the IV open by starting the flow of normal saline.					
6.	Obtain blood product from the blood bank according to agency policy. Scan for bar codes on blood products if required.					
7.	Complete identification and checks as required by agency: identification number; blood group and type; expiration date; patient's name; inspect blood for clots.					
8.	Take a baseline set of vital signs before beginning the transfusion.					
9.	Start infusion of the blood product.					
10.	Prime in-line filter with blood.					

 NANA EDUCATIONAL SOCIETY
 COLLEGE OF NURSING
 INSTITUTE OF
 54, WEST
 STREET, CANTONMENT

11.	Start the administration slowly (no more than 25 to 50 mL for the first 15 minutes). Stay with the patient for the first 5 to 15 minutes of transfusion.					
12.	Check vital signs at least every 15 minutes for the first half hour. Follow the institution's recommendations for taking vital signs during the remainder of the transfusion.					
13.	Observe patient for flushing, dyspnea, itching, hives, or rash or any unusual comments.					
14.	Never warm blood in a microwave. Use a blood warming device, if indicated or ordered, especially with rapid transfusions through a CVP catheter.					
15.	Maintain the prescribed flow rate as ordered or as deemed appropriate based on the patient's overall condition, keeping in mind the outer limits for safe administration. Ongoing monitoring is crucial throughout the entire duration of the blood transfusion for early identification of any adverse reactions. Assess frequently for transfusion reaction. Stop the blood transfusion if you suspect a reaction. Quickly replace the blood tubing with new tubing and 0.9% sodium chloride. Notify the physician and blood bank.					
16.	When the transfusion is complete, clamp off blood and begin to infuse 0.9% normal saline.					
17.	Record the administration of blood and the patient's reaction as ordered by agency. Return the blood transfusion bag to the blood bank according to agency policy.					

5.CHECKLIST FOR: USE OF GLUCOMETER

Sl NO	STEP/TASK	1	2	3	4	5
1.	Identify and explain the procedure to the patient					
2.	Keeps the equipment's ready for estimating blood sugar – Glucometer, Glucostrip, Lancets, spirit for skin preparation,					
3.	Washes hands					
4.	Prepares the skin puncture site (Newborn: Postero-lateral aspect of the heel, Children and adults: Finger tip) by using spirit and allows spirit to dry					
5.	Inserts the testy strip into glucometer					
6.	Makes a puncture with lancet and allows a drop of blood to form and drawn into the reaction zone of the test strip through capillary action.

Dear Sir/Ma'am,

I hope you are keeping well.

An MoU was signed and exchanged between your institute / hospital during the launch event of Mission Niramaya on 8 October 2022 in the presence of Hon'ble CM Shri Yogi Adityanath. The MoU was signed to collaborate in facilitating clinical practice and on-the-job training of nursing and paramedical students in private hospitals.

To check the progress of this collaboration, a review meeting is being planned under the chairship of the Secretary, U.P. State Medical Faculty, Dr. Alok Kumar, on 28 March 2023 (Tuesday) at 03 pm at UPSMF Office, 5 Sarvapalli Mall Avenue Road, Lucknow.

More details along with an agenda can be found in the document attached with this email.

Kindly respond to this email with the name, designation and mobile number of the designated nodal officer (Principal / Head of relevant department) who will be attending this meeting from your institute.

Regards,

U.P. State Medical Faculty

Review Meeting: MoU for On-The-job Training of Nursing & Paramedical Students

Context:

An MoU was signed and exchanged between institutes and hospitals during the launch event of Mission Nirnayya on 8 October 2022 in the presence of Hon'ble CM Shri Yogi Adityanath. The MoU was signed between 5 institutes (affiliated under UPSMF) and 5 private hospitals to collaborate in facilitating clinical practice and on-the-job training of nursing and paramedical students in private hospitals.

Responsibilities of the two signatory parties to the MoU are summarised in the table below:

Institute	Hospital
1. Provide list of students to the hospital	1. Designate areas for training in the hospital
2. Share the Clinical Rotation Plan (CRP) with the hospital in advance	2. Orient staff and set expectations of students coming for clinical practice
3. Orient the student on hospital protocols & appropriate behaviour	3. Make training plan, in consultation with institutes, as per learning needs of students
4. Appoint a faculty supervisor	4. Regularly monitor student progress
5. Any other support required by the students / hospital	5. Give experience certificates to students upon successful completion of training
	6. Provide job offers to students they deem appropriate for hiring

Key Ask:

To check the progress of this collaboration between institutes and hospitals in the past 5 months, a review meeting is planned to be held under the chairship of the Secretary, U.P. State Medical Faculty, Dr. Alok Kumar, on 28 March 2023 (Tuesday) at 3pm at UPSMF Office, 5 Sarvapalli Mall Avenue Rd, Lucknow.

Your institute is requested to be represented at this meeting by the designated nodal officer (Principal / Head of relevant department).

The agenda for the meeting is attached below.

INTRODUCTION

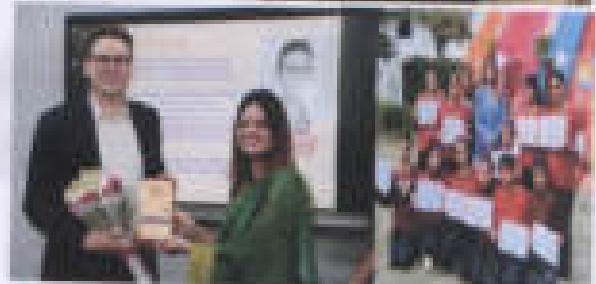

It is a matter of great pleasure to invite you to attend International Conference Organized by Baba College of Nursing, Lucknow on 12th & 13th August 2022.

The Baba College of Nursing & Institute of Paramedical founded by Mr. R. K. Vajpayee and is managed under Baba Educational Society established in the year 1999. Courses running under this society are ANM, GNPL, B.Sc Nursing, M.Sc Nursing and other Paramedical courses. Baba College of Nursing is accredited by the National Assessment and Accreditation Council (NAAC) since 2022.

The College of Nursing earned itself the title of being the only first MENTOR INSTITUTE in Lucknow and Awarded by Hon'ble Chief Minister Shri. Yogi Adityanath under Mission Niramaya in 2022. After Mission Niramaya, Baba College is fulfilling its responsibilities of being a mentor institute and is constantly striving to take its standard and speed activities of the college to a new level. Also our Baba College of Nursing received the prestigious grading 'A' from Quality Council of India under Mission Niramaya.

Our institute is also a part of Student Nursing Association and involved in the various activities organized by SNA. Baba Educational Society is dedicated towards working for welfare of Society since so long. The atmosphere of this Institute is Conducive to creative and productive learning. The college really cares its members. It is a place of civility, friendship and good cheer.

This conference brings together renowned professionals from all over the world to exchange information and experience on various modalities of Natural Birth.

SEMINAR ON DIMENSIONS OF HEALTH REPORT**

Event name: seminar on dimensions of health
Date : 15th July 2023
Time : 12-1pm
Venue : Auditorium
Speaker : Mrs. Manita Acharya

Event Briefs and Highlights:

As health is vital aspect of human life, so it is very necessary to know regarding the maintenance of healthy life and eliminating the various factors that causes ill health from our day to day life. Hence knowledge of various dimensions of health helps us to lead our life in a healthy manner and also to achieve our health as optimum as possible.

All students and faculty of Baba college of nursing attended the seminar with great enthusiasm and gain knowledge regarding diverse dimensions of health.

The following points were discussed during the seminar;

1. Definition of health
2. Concept of health
3. Various Dimensions of health

After the end of the session, feedback was taken and got the positive response from the students and finally programme was ended successfully.

BASIC LIFE SUPPORT TRAINING REPORT

Event Name: Basic Life Support training for Nursing Students
Date: 18.04.2023 to 19.04.2023
Venue: Auditorium, Baba Educational Society
Participants: All Nursing Faculty & All Nursing Students
No. Of Attendees: 447
Name of the trainer: Mr. Himanshu Joshi, Medanta Hospital, Gurgaon

Event brief & highlights:-

Basic Life Support, or BLS, generally refers to a level of medical care which can be provided by trained medical personnel, including emergency medical technicians, paramedics, and by qualified bystanders for victims of life-threatening illnesses or injuries until they can be given full medical care at a hospital.

College of Nursing, Baba educational society and Medanta Hospital, Gurgaon jointly organised two days basic life support Session on 18/04/2023 and 19/04/2023 from 10am to 5pm, which was conducted by experts from Medanta hospital, Gurgaon. Around 447 participants including College of Nursing Faculties and students of all the programs (B.Sc. Nursing, G.N.M. and A.N.M.) actively participated and updated their knowledge on Paediatrics' / Adult BLS With appropriate hands on skills.

The Session was started at 10:00am, in Auditorium with Introductory Session by Mrs. Jayana Kr. Rupjee, HOD, Dept. Of Obstetrics and Gynecology Nursing.

Dr. Archana Chouhan, Principal, Baba College of Nursing, welcomed the resource persons and the delegates. Mr. Himanshu Joshi explained about cardiac arrest
