

The facilities in the Institution for the waste management

The institution offers adequate facilities for the management of the following types of degradable and non-degradable waste:

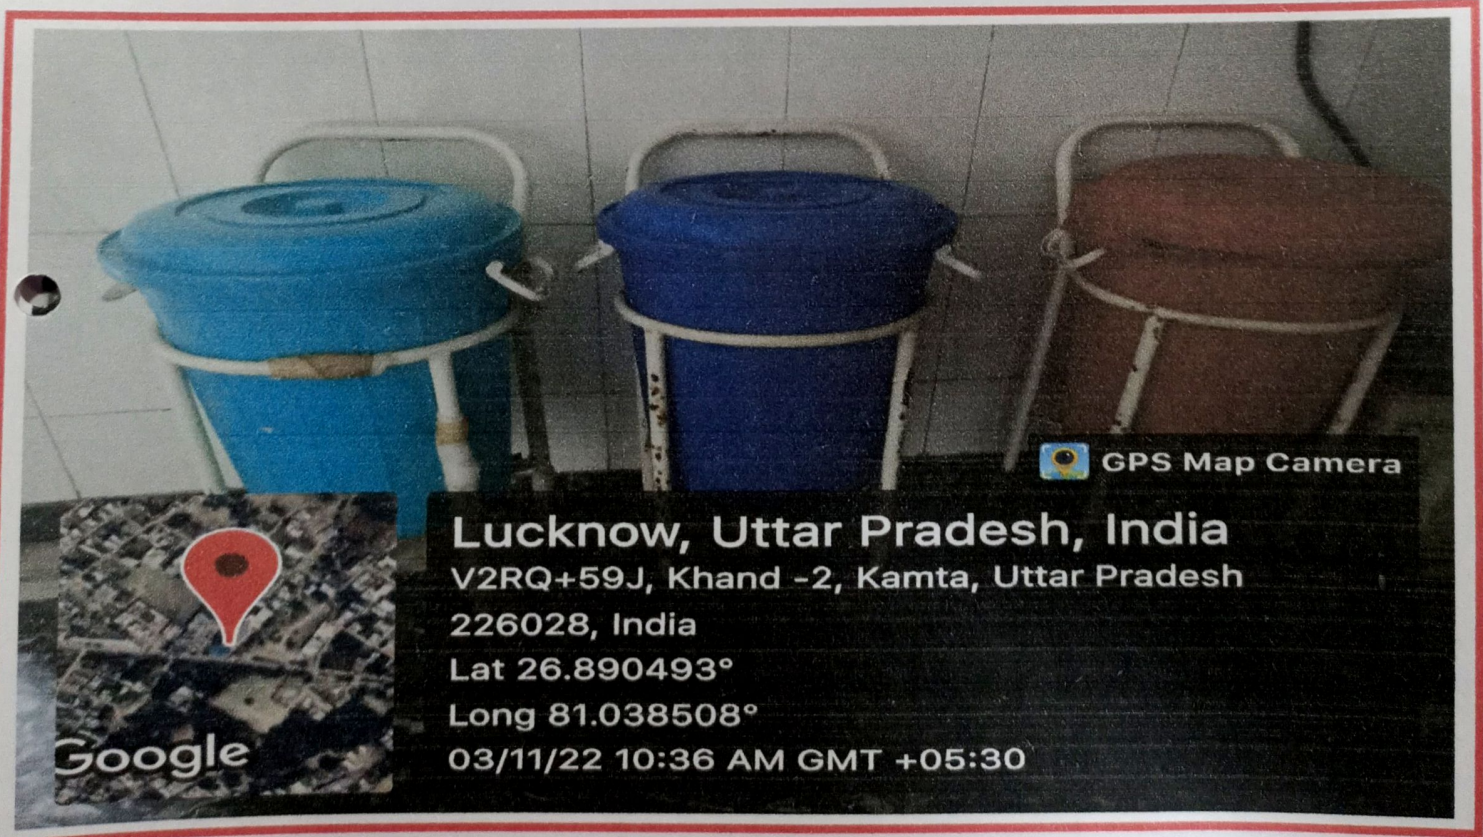

- Solid waste management
- Liquid waste management
- Biomedical waste management
- Waste recycling system
- Hazardous chemicals

The institute has authorization by the Uttar Pradesh pollution Control Board for Waste management for which the organization maintain MoU with Synergy Waste Management Pvt Ltd. The solid waste is taken care of by the local municipal authorities and collected timely on regular basis. Liquid waste management process is addressed by 'Effluent Installation Plan' and pre- treatment at the site as per hospital policy, wherever applicable. Biochemical waste is collected in various coloured bins as per the hospital Policy and collected for processing by 'Synergy waste management Pvt Ltd' with daily frequency and waste is collected from site itself. From time-to-time other generated waste is sold off to scrap personnel for recycling. Hazardous chemicals are processed as per the hospital policy and staff trained to address the same and spill management from time to time.
